Service Technician Job Description

Trans-Care Rescue Ltd., located 30 km north of Saskatoon on Highway 16 in Langham, SK, is looking to hire an additional permanent full-time Service Technician. We are a leading supplier of rescue equipment in Western Canada and have been serving the Fire and Rescue industry for over 40 years.

The Service Technician is responsible for upkeep and service of company rescue training equipment and company vehicles, on site servicing of customer rescue equipment and invoicing customers for service work. In addition, the Service Technician is required to maintain accurate inventory of rescue equipment and parts, as well as perform demonstrations and participate in trade shows.

Required Qualifications:

- A valid driver's license, clean driving record (will need to supply a recent abstract)
- Able to provide a criminal record check
- Demonstrate well-developed technical aptitude to assist with problem solving and troubleshooting
- Ability to work independently and in a team environment
- Have prior mechanical experience
- Proven attention to detail, motivated and willing to learn, reliable, organized, punctual and ready to contribute to a positive working environment
- Able to physically perform all necessary duties of the position

Work Conditions and Personal Suitability:

Trans-Care Rescue Ltd. is a fast-paced environment. We are looking for an individual who works well under pressure, pays great attention to detail, and can meet deadlines. Excellent oral and written communication skills are a must. This person needs to have superb organization and time management skills with the ability to multi-task.

Wages are dependent upon qualifications. Benefits to commence after a 3 month probationary period.

Please submit cover letter and resume to sheila@trans-carerescue.com.

We thank all applicants for their interest; however, only candidates selected for next steps will be contacted.
